

Bali - Mt. Agung

A Pilgrimage to The Venus Chakra of the Earth

APRIL 16—30, 2018

with Robert Powell & Karen Rivers

The Sophia Foundation is hosting a pilgrimage to Bali in the spring of 2018. The highest mountain on Bali, Mount Agung is believed by the Balinese to be a mystical mountain, which they think of as a replica of the mythical Mount Meru, the sacred mountain in Hindu and Buddhist cosmology, considered to be the central axis of the universe. The great Mount Agung rises to an altitude of 3,148 meters (10,308 feet) in eastern Bali. Perched on its slopes at an altitude of 924 meters (3,032 feet) is the holy Besakih Temple, the Mother Temple of Bali. According to the research of Robert Powell and David Bowden, presented in their book, *Astrogeographia*, it is here on this volcanic mountain that the Earth's Venus chakra is located.

Purab Besakih (the Mother temple of Besakih)—the most important, largest, and holiest Hindu temple on Bali, is located high on the slopes of Mount Agung.

GENERAL OVERVIEW —

The central theme of our pilgrimage to Bali—continuing our journey from continent to continent visiting the earth's planetary chakras—is to visit Mother Earth's sacral (Venus) chakra located on Mt. Agung, Bali. Referred to by Robert Coon as "the World Purification Center," he indicates that the sacred sites located on the island of Bali serve in the purification of the Earth's blood. This is the function of the kidneys in the human being, to help in the purification of the blood, removing toxic materials from the body. The kidneys being the organ corresponding to Venus and the sacral chakra of the human being. The Venus qualities of love and beauty infuse the culture of Bali. As the Venus chakra works to bring balance to the human organism and soul, the Balinese live by three central

principals focused upon the goal of bringing one's being into balance: Keep balance between yourself and others, between yourself and nature, and between yourself and God.

All temples in Bali point towards Mount Agung, where the Mother Temple of Besakih is, with its uncountable steps, solemnly wait for the arrival of the gods and the goddesses, for when they step down from heaven, they come to Besakih by way of Mount Agung.

As we travel in sacred places on the Earth, meeting people from all parts of the world, we wish to embody the highest ideals of humanity, bringing an attitude of respect, generosity, courtesy and kindness to all we meet. Our intention is to travel together with constancy and caring, to create true community, to develop and extend the presence of the sacred in daily life. We will practice no trace living, being careful to leave all sites we visit at least as clean, if not cleaner, than we found them and to protect the environment in all ways.

FELLOW TRAVELERS IN SPIRIT Each time the SF travels to sacred places we wish to serve a needed social cause central to the area visited. If you are not able to join us for the journey itself, but would like to serve the spirit of the pilgrimage, we would like to offer a way for you to participate as a "Fellow Traveler in Spirit," by contributing to a fund which we will gift to a local project of service. We hope in this way you may join us in Good Will and Deed in world travel with a social conscience. Those who become Fellow Travelers in Spirit will receive copies of relevant handouts, notes, and meditative materials prepared for this pilgrimage. Those attending the pilgrimage will receive a list of recommended reading and meditation material for inner preparation for the pilgrimage.
