

The Speaking Stars And the Fifth Light of the Grail

**Claudia McLaren Lainson and Audrey Wiebe,
with special guest Estelle Isaacson**

**Musical accompaniment for cosmic dance and evening Grail celebrations
by the wonderfully accomplished pianist Marcia Buchard**

Conference: Monday June 12th through Friday June 16th 2017

Free Public Lecture: Sunday evening, 7-9pm, June 11th

Kelly's Barn 1360 Sumac Avenue, Boulder Colorado

As above, so also below!

The Fifth Light both ascends from the heart of the Mother and descends from the throne of her Daughter. A veil is thus parting, revealing mysteries hitherto unknown.

Seven healing miracles were performed by Christ Jesus two thousand years ago, and the octave of these miracles must now be performed by human beings standing together in community

Our conference will include the following topics:

- **The Three Crosses of Mary in the Age of the Fifth Light**
- **The Star Sirius and the Ascent of our Mother's Healing Forces**
- **Conversations with Ancient Prophets and Prophecies**
- **Signs of Our Time in Light of a New Star Wisdom**

We are all commissioned to walk the narrow path that stands between confusion-inducing anxiety and the crippling paralysis of fear that is experienced throughout the world. The fracas of divisiveness is a critical distraction—a temptation on a global scale.

We will explore this path together in celebration of a turning point we must witness, for the Fifth Light calls humanity to awaken from its long sleep in the delusions of materialism.

**We warmly welcome all to participate with us as we “listen truth into time”
in communion with the stars.**

*Cosmic Dance (Choreocosmos) comprises dancing the patterns of the starry heavens accompanied by music of the great composers. This art form derives from the cosmic aspects of eurythmy, awakening healing rhythms and harmonies through eurythmic gestures and forms. Participants cultivate a path toward spiritual awakening and an awareness of the weaving together of the cosmic dimensions of Love and Wisdom foundational to all creation.

Live piano music for the course will be played by pianist and composer Marcia Burchard.

Robert Powell, founder of the Choreocosmos School, will not be with us in Boulder this year. The baton has been passed to those of us who strive to foster the continuity of his spiritual work in the world. We hope many of you will help us make this transition as we together plant seeds for the profound evolutionary shift now before us.
