

Cosmic Dances: “The Seven Last Words from the Cross—In Preparation for the Descent to Shambhala”

**With Cosmic & Sacred Dance—Planets in the Signs of the Zodiac
International Choreocosmos Week: Sixteenth Graduation
Workshop with Robert Powell. Saturday 22 July to Friday 28 July 2017
A one week experiential course—all are welcome—and also graduation of
Choreocosmos students—at the Spa Hotel CASA DI SALUTE RAPHAEL,
RONCEGNO near TRIENT/TRENTO, ITALY
Musical accompaniment by concert pianist Alla Fastovskaja**

Our intention with this workshop is to gather together to serve as a spiritual bridge, to bridge the time of Christ's first coming some two thousand years ago and the time of his second coming now—during which his descent to the Mother and his opening of the path to her realm, Shambhala, at the heart of the earth is taking place. The time of the second coming began around 1933 and will last for some 2,500 years. It is not a return in physical form but, rather, in spiritual form, in the etheric realm of the earth, within the earth's etheric aura permeated with the life forces of Mother Earth—permeating the whole of Nature and extending out into the cosmos as far as the Moon's orbit, and reaching down into the Earth's interior all the way to the heart of the earth, to the golden realm of Shambhala at the earth's center. Our spiritual work will be to serve as heralds to the kingdoms of Nature on the one hand—letting Nature's realm know and experience, through ourselves, more about the great spiritual event of the second coming—and on the other hand to work more intensively in conjunction with the angelic realm. For the Angels are now active, making preparation for the events that are soon to unfold in connection with the second coming. The last words spoken by Christ in the flesh, the seven sayings from the cross, were—and still are—keys to prepare us for the opening of seven gates within the Earth's interior. They relate to seven distinct layers on the path of descent to Shambhala.

English and German, with translation into Italian by Uberta Sebregondi. The arrangement with three languages (English, German, Italian) is a step toward bridging cultures in a cosmopolitan way. The language of Cosmic Dance is universal—expressed through eurythmic movement and gesture (the Greek word Eurythmy signifies “harmonious movement”)—a cosmic language.

Choreocosmos – from the Greek meaning cosmic dance:

- Comprises dancing the patterns of the starry heavens and also movement to sacred texts, prayers, and liturgies
- Derives from the cosmic aspects of eurythmy, an art form introduced to the world by Rudolf Steiner during the first quarter of the twentieth century, bringing to expression – through movement and gesture – the invisible life forces of the cosmos and nature
- Awakens healing rhythms and harmonies through the gestures and forms of eurythmy
- Attunes participants to the cosmic dimension of Divine Love and Divine Wisdom, offering a path toward spiritual awakening and cultivating an awareness of the weaving together of the holy substance of Love and the divine essence of Wisdom foundational to all creation

In eurythmy we are renewing the primeval temple dance of the Mysteries, mirroring the dance of the stars...of that which was spoken...from heaven down to human beings. One must once again discover...the essence of spiritual knowledge. ~Rudolf Steiner
