

LISTENING

AT THE FIERY EDGE OF
CONSCIOUSNESS:

THE INTERWEAVING OF HUMAN
AND COSMIC DESTINY

June 3 - June 7, 2019

Public lecture Sunday June 2nd, 7:00- 8:30 p.m.

Kelly's Barn

1360 Sumac Avenue
Boulder, Colorado

Our June Conference begins with a New Moon in the constellation of Taurus and with the Sun and Moon close to Aldebaran—the luminous star marking the eye of the Bull. Powerful influences radiate from this location of the Zodiac. We will work with these cosmic forces as we dance, sing, and experience what it means to listen through the horns of the Bull.

**Are we willing to see the Light
and hear the Apocalyptic prophecies of our age?**

Since the time of Jesus Christ, the Earth has been permeated by a great and glorious Story.

Each of our individual stories is a thread in the fabric of this all-encompassing tale, for the Jesus Being is the eternal archetype of each and every human being. Limitless potential lies at the fiery edge of consciousness, urging us to leap into the golden dawn of a new era.

With her consort Osiris, Isis-Sophia ruled during the ancient Egyptian cultural epoch, which developed under the auspices of the age of Taurus.

Isis was tasked with re-memorizing the body of her beloved Osiris after he had been torn to pieces by his evil brother Seth. This is an analogy for the evil we now face, one that is dismembering the promised destiny of the Earth and humanity.

To survive this period of dangerous intellectualism, we are wise to unite our story with the one Great Story. This is the work of Hermeticism, for coherence between what is above and what is below creates an open door into a future already waiting for us to arrive.

**The quiet mind enters into the Story.
It is a place, a matrix, wherein we see how
things are not as they appear.**

Please join us as we explore new octaves in human experience. Regardless of whether we are male or female, our souls are the Isis-Sophias of the 21st century, seeking to re-memorize ourselves back into the mandala of creation.
