

# CHOREOCOSMOS

## *Dancing with the Stars*

We come together in community on earth to connect through the dances and through the music with the harmonies of the spheres—as our small contribution towards the great work of keeping heaven and earth aligned. — ROBERT POWELL

A 5-day Choreocosmos Program, given by *Karen Rivers*, PhD, with pianist, *Marcia Burchard*

*Cosmic dance seeks to lead us to the Ultimate Source from which the creative powers of existence reveal themselves in the movements of the Sun, Moon and planets against the background of the stars comprising the twelve signs of the zodiac. This Ultimate Source is Divine Love, which radiates throughout the starry heavens and permeates all the kingdoms of Nature. Through the harmonious rhythms and sacred geometry of the dances, we are able to align in heart and mind, body and soul, with the creative forces of the cosmos — the Divine Love and Supreme Consciousness that pervade all existence.*

*At His death the Christ-Being poured Himself out into the spiritual Earth-sphere, so that humankind may become more and more able to participate in that which, proceeding from the Mystery of Golgotha, can pour forth spiritual forces into the souls and hearts of all human beings. . . From then on it was possible for the ego to participate in the work of the forces belonging to the Zodiac, to reach into the Zodiac. The more the ego strives for the highest point of its evolution, the more it works into the Zodiac. There is nothing that happens in the innermost core of the ego that has not its consequences right up to the very Zodiac. — R. STEINER*

Choreocosmos has the intention to connect the participants with a living experience of the etheric world within and around them, as an informing source toward right action in the world. From this perspective, the goal of the practice is to lead one toward a sense of reverence and appreciation for the living fabric of wisdom that weaves throughout the cosmos —cosmos coming from the Greek word for order—including the ordered, sense perceptible creation. This can lead one toward a sense of responsibility as a cosmic citizen of the greater whole of creation.

*The higher goal of Choreocosmos is the union of divine and human existence.*

*It is a schooling in cultivating an ever greater awareness of and relationship with the spiritual world in truth and moral integrity and the striving to embody these qualities in daily life.*

**CHOREOCOSMOS**, the school of Cosmic and Sacred Dance, was founded by Robert Powell, PhD, and co-founder of the Sophia Foundation, with the intention of aligning one's self harmoniously with the spiritual-cosmic world and to celebrate the relationship of the human being with the cosmos and the earth. For biographical information about Robert Powell and books he has authored see [www.sophiafoundation.org](http://www.sophiafoundation.org).

The Seven Planetary Seals above, drawn by Rudolf Steiner in 1907, were carved into the columns in the first goetheanum in Dornach, Switzerland. They depict the transformation of energy and consciousness through each stage of Earthly evolution. Each seals contain the secret of the life force, which is manifested in it. The seals are related to each other by a process of metamorphosis. Each form is related to the one before and after it like a seed, sprout, stem, leaf, bud, blossom and flower. These forms are central to the planetary dances of Choreocomsos.

The program will focus upon life between death and rebirth—the journey of the soul through the planetary spheres—and the dances of the Sophia Grail Circle, Jacob's Ladder.
