

WORKSHOP CELEBRATING THE 100th ANNIVERSARY OF THE DEATH OF RUDOLF STEINER

Robert Powell will host a workshop in Tumbaco, Quito, Ecuador, during Easter week from April 12-20, celebrating the Circle of Life, followed by the celebration of the 100th anniversary of the death of Rudolf Steiner (1861-1925).

The first part of the workshop is planned as preparation for the second. See link below for all details of the workshop and the registration process, and get additional information about location and accommodation.

About this upcoming celebration during the Easter week of 2025 in Tumbaco, Quito, here are some introductory words about the second coming of Christ and the instreaming of Divine Love:

On the one hand, there is much chaos and war in the world today. On the other hand, Christ in his second coming is bringing a new wave of the cosmos, a wave of Divine Love, which will help to purify the world. Thus, human beings, together with the Earth, have the possibility to enter into connection with a higher order of existence, the opportunity to work with the power of Divine Love. Join us in sharing this opportunity to open to the gift of Christ's Divine Love:

Lectures: The downward journey of the soul into embodiment through the planetary spheres and the upward journey of the soul in the afterlife. We will explore Rudolf Steiner's description of existence between birth and death in relation to the spiritual hierarchies that inhabit the various realms of the planets belonging to our solar system. This description is the key to a spiritual astrology, which we will explore in relation to Rudolf Steiner's birth and death horoscopes.

Movement: Through Rudolf Steiner's gift of eurythmy, applied as cosmic dance, this opens to the spiritual hierarchies that inhabit the planets of our solar system. In this way we are able to connect with the inflow of Divine Love, as a step towards becoming disciples of Christ in his second coming.

Musical accompaniment for the cosmic dance (eurythmy) movement is provided (live) by classical pianist Clair Hiles.

Musical meditations: Meditative readings accompanied by music.
